Let all of Aethelmearc rejoice! Their Majesties Titus Scipio Germanicus, King by Right of Arms, and Anna Leigh, Queen by inspiration, have been granted the ability to recognize excellence in the field of Rapier. If excellence is the bar, there is none more worthy than Duchess Dorinda Courtenay. She has served as inspiration. She has served as warlord. She has served as mentor. She has served as advisor. We are not just recognizing her for these services, and countless others that she renders, it is how she serves. She embodies the values that we most want our order to encompass for the known world to gaze upon. She is welcoming and gracious, nurturing and supportive, chivalrous and courteous. She is well respected and beloved by all. We would have her nurture the new peerage with the same loving care she has guided our rapier community with from its very infancy. We ask that she present herself at A Celebration of Rapier on May 1st, AS 50 in the Shire of Herontir where she will be the guest of honor at a joyous celebration of our new peerage. Game of the Month Cockstride

by THF Dagonell
the Juggler

The illustration is a detail from Brueghel's painting, "Children's Games", done in 1560. The rules below are taken from Traditional Games of England, Scotland and Ireland by Alice Gomme.

From Gomme: "One boy is chosen as Cock. He is blindfolded, and stands alone, with his legs as far apart as possible. The other boys then throw their caps as far as they are able between the extended legs of the Cock. After the boys have thrown their caps, and each boy has taken his stand beside his cap, the Cock still blindfolded, stoops down and crawls in search of the caps. The boy whose cap he first finds has to run about twenty yards under the buffeting of the other boys, the blows being directed chiefly to the head. He becomes Cock at the next turn of the game."
